**Pope Interested
In Making Saint
Of Mother Seton**

By the Associated Press

ROME, July 14.—Pope Pius XII is said to have expressed warm interest in the recommendation for sainthood of Mother Elizabeth Ann Seton, founder of the American parochial school system, after hearing the Rev. Salvatore Burgio set forth the reasons for canonization.

Father Burgio represented the Mother Seton Guild at Emmitsburg, Md., where the pioneer in Catholic education lies buried.

Mother Seton was born in 1774 and founded the order of the Sisters of Charity in 1809. Father Burgio said the cause for canonization was entered in 1907 and "is going along favorably."

If Mother Seton completes the long process of being declared venerable, beatified and finally canonized, she will become the first saint to be born in America. St. Francis Xavier Cabrini, canonized last year, was born in Italy although she spent most of her life in the United States.

**Jap Atrocity Trial Witness
Accidentally Electrocuted**

By the Associated Press

GUAM, July 14.—A third Japanese witness in the Truk Atoll atrocities trial died today, accidentally electrocuted when he touched a nail in a washroom scree door at the Marine stockade.

The witness, Sakaboro Imagawa, petty officer second class, was killed when the main island public works plant shot too much power—4,150 volts—into the lines serving the stockade and naval hospital, Navy officers said.

Sentries pried the Japanese loose from the nail. He recovered consciousness but died almost immediately of severe shock.

Two other Japanese witnesses recently committed suicide by slashing their abdomens and throats with razors. Imagawa had not testified.

The Navy said an investigation of today's accident had been ordered by Rear Admiral C. A. Fownall, commander in the Marianas.

Nineteen Japanese are on trial, charged with the atrocity deaths of 10 American captives.

**House Group Approves Bill
To Relinquish Jackson Hole**

By the Associated Press

The House Public Lands Committee approved today a bill to abolish the 221,000-acre Jackson Hole National Monument in Wyoming.

The committee accepted an amendment to place 40,000 acres now in the monument in the Grand Teton National Park. It also would provide that Teton County, Wyo., be reimbursed from park admission fees for taxes on private lands now in the monument which will be lost when the acreage is added to the park.

The monument, created by President Roosevelt in July, 1943, was opposed by Wyoming ranchers and others on the ground that it prevented the grazing of cattle and sheep in the monument area.

Representative Barrett, Republican, of Wyoming, author of the bill, has been successful since 1943 in preventing appropriation of any money for administering the monument or enforcing the Park Service regulations there.

**World's Largest Helicopter
Meets Tests Successfully**

By the Associated Press

The first test flight of the XR-19, the world's largest helicopter, has been conducted successfully at North Wales, Pa., the Army Air Forces said yesterday.

The helicopter, with a gross weight of almost 11,000 pounds, is described by the AAF as the first twin-engine transport type helicopter. The two three-bladed rotors can be driven by both or either of the twin 555-horsepower engines.

It has a 10-passenger capacity in addition to the pilot and co-pilot, or can carry six wounded personnel on litters. A hatch opening in the floor is equipped with a hoist and sling for picking up or lowering men or cargo while hovering above the ground.

Range is given at about 350 miles, maximum speed "well over 100 miles an hour" and cruising speed 90 miles.

Lebanon Fights Plague

Lebanon's Ministry of Public Health has taken every precaution to prevent entry of the plague which has broken out in villages along the Turco-Syrian border.

**Woman Dies of Burns;
Farmhand Is Held**

By the Associated Press

HARRISVILLE, W. Va., July 14.—Mrs. John Stackhouse, 30, died in a Parkersburg hospital today of burns suffered when her farm home was destroyed by fire Saturday, and Prosecutor Harry Moats announced he would file a murder charge against Howard Clayton.

Clayton, 38, being held in the Ritchie County jail here on charges of assaulting, burning and attempting to murder Mrs. Clayton.

Mr. Moats previously had announced that Clayton, a farmhand who lived at the Stackhouse home, had admitted he threw kerosene on the woman's clothing while "scuffling" in the burning home.

Deloris Stackhouse, 8, who summoned help despite her serious injuries, remains a patient in the hospital where her mother died.

Another child, Wilma, 7 months old, suffered slight burns, while Virginia Stackhouse, 5, escaped injury. The home and its contents were destroyed.

Sheriff John Lowther quoted Mrs. Stackhouse as saying she was awakened by a man choking her, and the house was in flames. The officer said Mrs. Stackhouse told him that after once escaping from the fire, the man dashed kerosene over her clothing and pushed her back into the burning house.

HOUSEHOLD FURNITURE

W. A. HARRIMAN
Secretary of Commerce Says:

**Keep
Turning In
Your
Used Fats**

Used cooking fats have represented a substantial part of our total industrial fat supply. The more than 600 million pounds of used fats that American home-makers have saved and turned in since 1942 has been of vital importance. It is a record of which every woman who contributed may well be very proud.

The United States still lacks adequate supplies of fats and oils. And we are particularly short of industrial fats. Many, if not most, of the things we all use and wear require industrial fats, or the products of industrial fats, such as soaps and glycerine, in their manufacture.

So won't you keep up your good work and continue to save and turn in every possible pound of used fat?
